The figures below estimate what you would net at closing at three different list prices. They are based on standard Maryland and Harford County seller costs and your estimated loan balance. Actual numbers are finalized on the title company's settlement statement.

Total estimated costs of sale	-\$254,280	-\$256,043	-\$258,171
ESTIMATED NET PROCEEDS	\$46,620	\$73,857	\$106,729

Not included yet — set once we finalize strategy: home warranty for the buyer, any buyer closing-cost concession, pre-listing repairs or prep, and property-tax proration (depends on the closing date). Each is \$0 in this estimate.

Capital gains — you bought in 2017 for \$175,000. As your primary residence (owned and lived in 2 of the last 5 years), the first \$250,000 of gain is excluded from federal tax — \$500,000 if married filing jointly. At these prices the gain is well under that. Confirm with your CPA.

ASSUMPTIONS

1. Estimate only — not a closing disclosure or a guarantee of proceeds. 2. Commission of 5.0% total is a placeholder; it is negotiable and set in the listing agreement, with buyer-agent compensation negotiated separately. 3. Maryland state transfer (0.5%), Harford County transfer (1.0%), and Harford County recordation (~\$6.60 per \$1,000) are customarily split evenly with the buyer; the seller's combined half (1.08%) is shown. Exact split is set in the contract, confirm with title. 4. Estimated loan balance is \$234,785 (Sept 2026). This is an estimate, not a payoff statement, actual payoff may differ slightly with per-diem interest and fees. Confirm with a current statement before closing. 5. Harford County property-tax proration is set at closing once a date is known.
